Sanjai Kumar M

Full Stack Developer | React.js | Node.js | Next.js | AWS

Chennai, India | +91 98409 68449 | msanjai3107@gmail.com | linkedin.com/in/sanjai-kumar-m-6b332b202

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building secure, scalable web, mobile and Smart TV platforms using React.js, Next.js, Node.js / Express, Laravel and MySQL. Currently building B2C and B2B flight and bus booking platforms on AWS. Previously led a team of 10 developers, delivering Video-on-Demand and eCommerce products for 60+ clients, with hands-on DevOps experience in Docker, Kubernetes, Jenkins and CI/CD automation. Strong in system design, API design, performance and database optimization, Redis caching and application security.

CORE SKILLS

React.js | Next.js | Node.js | Express.js | JavaScript | Laravel | REST APIs | Microservices | MySQL | AWS (EC2, S3, RDS) | Docker | Kubernetes | CI/CD | Third-Party API Integration

TECHNICAL SKILLS

Frontend: React.js, Next.js, ShadCN UI, JavaScript, HTML, CSS, Bootstrap, jQuery, Ajax

Backend: Node.js / Express, Laravel, Lumen, CodeIgniter, Yii2, Redis, FFmpeg, JWT, OAuth

Database: MySQL, Firebase, Supabase, Prisma ORM, Sequelize ORM

DevOps and Cloud: AWS (EC2, S3, RDS, SES, SNS, End User Messaging, User Notifications), Docker, Kubernetes, Jenkins, Bitbucket, Git, Cloudflare, Postman

Integrations: TekTravels, WorkOS, Cashfree, Twilio, Stripe, Razorpay, PayPal, Paystack, BunnyCDN

Practices: System Design, API Design, Microservices, Scalability, Performance and Database Optimization, Caching (Redis), Monitoring, Logging, Security, CI/CD, Agile, Scrum

PROFESSIONAL EXPERIENCE

Full Stack Developer, Navigatio — December 2025 to Present

- Designed and built Node.js B2C REST APIs for the Navigatio mobile apps, covering end-to-end flight and bus booking flows through TekTravels third-party APIs.
- Developed a B2B React.js web application with Node.js APIs for booking flows, admin panels and organization management.
- Implemented organization sign-in with WorkOS domain verification, and GST and PAN verification through Cashfree APIs.
- Deployed and maintain the Node.js and React.js stack on AWS EC2, S3 and RDS, owning monitoring, logging, alerting (AWS User Notifications) and security.
- Integrated WhatsApp and voice messaging with Twilio, SMS OTP with AWS End User Messaging, and transactional email with AWS SES.
- Engineered deferred deep linking from email campaigns, with click logging, Play Store referrer routing and iOS App Store fallback.

Full Stack Developer and Team Lead, Webnexs — July 2021 to December 2025

- Delivered and maintained a Video-on-Demand platform for 60+ clients and 3 eCommerce clients, owning deployment, maintenance and performance optimization end to end.
- Led a team of 10 developers, managing workflows, task distribution and CI/CD pipelines with Docker, Jenkins and Bitbucket for timely, stable releases.
- Built Next.js admin dashboards with ShadCN UI, role-based access control, Firebase / Supabase authentication and Prisma / Sequelize ORM, plus BunnyCDN API and Flask automation microservices.

PROJECTS

Multi-Tenant DevOps Infrastructure for VOD and eCommerce | DevOps and Full Stack Engineer

Tech Stack: Docker, Docker Hub, Kubernetes, Node.js, Next.js, MySQL (Prisma ORM), Cloudflare API

- Designed and deployed a multi-tenant DevOps architecture using Kubernetes namespaces for secure tenant isolation and optimized resource utilization.
- Automated CI/CD pipelines for container builds, database migrations and application deployments across multiple environments.
- Automated domain and subdomain provisioning with Cloudflare DNS, Ingress controllers and SSL mapping; maintained load stability with Horizontal Pod Autoscaling (HPA) and webhook-based recovery.

AI-Powered DevOps and Organization Management Platform | Full Stack Developer

Tech Stack: Next.js, Node.js, MySQL (Prisma ORM), Bitbucket API, AI Integration

- Built a multi-organization platform for project tracking, team task management and email-thread communication.
- Integrated Bitbucket repositories with AI-driven auto-deployment and monitoring for multi-tenant VOD and eCommerce projects, improving release speed and reliability.

Playmedia | Full Stack Developer

Tech Stack: Laravel, Lumen (Microservices), React.js, Node.js, MySQL (Sequelize ORM)

- Designed a scalable Video-on-Demand platform for Web, Mobile and Smart TV applications with multi-user profiles.
- Built Lumen microservice APIs with JWT authentication and React.js admin dashboards for users, content partners and channel partners.
- Integrated BunnyCDN, AWS S3, VideoCipher, Flussonic and payment gateways (Stripe, Razorpay, PayPal, Paystack, Cinetpay), owning the lifecycle from architecture to deployment.

VOD Web Application | Full Stack Developer

Tech Stack: Node.js / Express (Microservices), React.js, Lumen, Laravel, MySQL (Sequelize ORM)

- Built a Node.js microservices VOD platform with JWT authentication and RESTful APIs for Admin, Channel Partner and Content Partner modules.
- Developed a React.js frontend with multi-profile selection and role-based dashboards, with low-latency streaming through BunnyCDN and Flussonic.

Flicknexs | Full Stack Developer

Tech Stack: Laravel, JavaScript, Bootstrap, MySQL (Sequelize ORM)

- Built RESTful APIs for mobile applications, using MySQL and Sequelize ORM for efficient relational data modeling.
- Integrated BunnyCDN, AWS S3, VideoCipher and Flussonic for redundant video streaming, and Stripe, Razorpay and PayPal for subscriptions.

PGM Gold and Silver | Backend and Infrastructure

Tech Stack: Linux, CloudPanel, SSL/TLS, mTLS, Yes Bank Payment Gateway

- Managed servers and SSL for four production sites, and integrated the Yes Bank payment gateway over mutual TLS with a dedicated client certificate.

EDUCATION

B.E. Computer Science and Engineering

2015 to 2019

Rajalakshmi Engineering College, Chennai
